**EN STANDARD CERTIFIED, HIGH QUALITY ASSURANCE**

With its superior quality, EN 137-2006 certified T8000 EN SCBA leads the standard in the industry and ensures incomparable security.

# T8000 EN

## European Standard Certification for Complete Apparatus

- \*\*\* The complete SCBA rigorously passed continuous breathing tests 1.2 million times and provides high reliability
- \*\* The operating practice and working circumstances of users in Asia are taken into complete consideration in the rigorous development and research by simple design and well-planned layout of the product.
- \* The whole SCBA only weighs 10.4 kg (including 4.0 kg gas cylinder). Its light weight design meets easy mobility and long working time requirements.

### Reliable reducer system

- Safe and reliable first stage reducer system
- Easy to maintain thanks to non-valve-needle design
- Compact reducer design, reducer weighs only 700 grams
- The efficient buddy breather outlet provides equal medium-pressure air flow to the people being rescued, without decreasing the air flow used by the rescuer. Ensures the safety of both rescuer and rescued.

### Flexible connector demand valve

- Newly-designed Banjo connector provides more flexibility when wearing the demand valve
- Banjo connector puts the medium-pressure hose closer to the user's chest and avoids the risk of hose becoming hooked.

### High-tech high pressure hose with chest whistle.

- The built-in high pressure hose is equipped with exposure hole outside to ensure user's safety.
- The chest whistle provides over 90 dB loud alarm to ensure the easy noticing of the user and others.

### Harness system

- Medium pressure hose and high pressure hose are positioned on both sides and tightly against back pack to ensure safe and balanced wearing.
- Broadened straps ensure comfort, equipped with reflective stripes for easy observation in dark environments.

### Survivair 20/20 plus mask

- Manufactured to US NFPA (National Fire Protection Association) Standard, and complies with EN standard.
- High temperature resistant and does not harden or become brittle under low temperature conditions. Good anti-chemical corrosion performance as well.
- Rugged connections of demand valve, which pass 9 meter (30 feet) drop test onto concrete
- Special anti-scratch coating lens provides superior scratch resistant capability.
- Provides wide view scope with non-distorted and perfect visual effect.
- Patented KAPTON sound conducting film material provides highly efficient sound conduction.
- Optional KEVLAR head net available

### Small talk amplification system

### Small talk amplification system

- The communication system of simplest structure provides best communication quality.

### Optional PANO full mask

SKU	Description
<b>Basic Unit</b>	
SCBA845	T8000 EN SCBA (EN 6.8L Carbon Cylinder, PANO Mask)
SCBA855	T8000 EN SCBA (EN 6.8L Carbon Cylinder, Survivair 20/20plus Mask)
<b>SCBA with 9L Cylinder</b>	
SCBA849	T8000 EN SCBA (EN 9L Carbon Cylinder, PANO Mask)
SCBA859	T8000 EN SCBA (EN 9L Carbon Cylinder, Survivair 20/20plus Mask)
<b>SCBA With buddy breather</b>	
SCBA845T	T8000 EN SCBA with buddy breather (EN 6.8L Carbon Cylinder, PANO Mask)
SCBA855T	T8000 EN SCBA with buddy breather (EN 6.8L Carbon Cylinder, Survivair 20/20plus Mask)
SCBA849T	T8000 EN SCBA with buddy breather (EN 9L Carbon Cylinder, PANO Mask)
SCBA859T	T8000 EN SCBA with buddy breather (EN 9L Carbon Cylinder, Survivair 20/20plus Mask)
